Subject: FW: Info on Tanks

Good morning Rich... I just want to be sure that you received the cylinder #s for the MB on St. Thomas. Our people are going to try to determine the volume of the remaining MB using a bathroom scale, so can you tell me the weight of a full cyl and the tare weight of the container? That would be helpful, thanks! I'll keep you generally apprised of events to keep you current.

FYI there's a second cylinder of MB on St. Croix used by Terminix but manufactured by a company other than Great Lakes. That company has agreed to arrange to ship it back to the U.S. as well.

Thanks,

Paul

Cannister on St. Thomas:

Meth-O-Gas Q
EPA Registration No. **5785-41**

EPA Est No. 87994-NC-003

Lot No. MOGQ-8-REV.D
